

The FAA Safety Team presents:

## Mayday, Mayday, Mayday!

When you hear sudden silence or a rough running engine, or see a loss of oil pressure... what do you do first? When should you be thinking about a precautionary off airport landing? Do you fly over hostile terrain or over open water? Once you make it down safely... what's next? Featured speaker Lt. Col. Sandy Sanderson and FAASTeam Program Manager Jim Adams will present this educational and interactive program, so bring your questions. Refreshments provided by the 399th Squadron of the Civil Air Patrol (CAP). Please click on the link below to see all the details and register TODAY!

**Directions:** I-84, Exit 3, follow Sugar Hollow Rd. to end, turn right on to Miry Brook.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAAFTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
