

Cockpit Resource Management - And You !

How well is your cockpit managed? We don't have all the answers, but this seminar will provide some useful tips to help increase the level of safety while you are flying. This event will provide information about the history of CRM and how we got to where we are today. We will look back at a few accidents to learn from the simple mistakes that others have made. Next, we will discuss current day challenges and ways to simplify the management of your cockpit; from house keeping to using added resources available to you, to enhancing your flight planning, and ultimately increasing your enjoyment while improving your safety of flight. Click the link below to register TODAY.

Directions: I-84, exit 33, to CT-72 W, exit at CT-177 turn Rt. on to N. Washington St. go 1/2 mile turn Rt. on to Johnson Ave. See Maplink at faasafety.gov

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
