

# Are You Fit Enough to Fly ? Bring Your Friends Question and Find Out

Have you been having one of those days when you are flying along and are thinking, " Gee, I wish I was back on the ground", or I wonder if I should tell my AME about that medication that my physician prescribed to stop my dizziness? How about those OTC meds? At this seminar, FAASafety Rep. Pilot and AME will discuss medical conditions that may affect your ability to fly safely. We will be giving attendees a chance to ask questions of the AME in a non-threatening way, and no recording devices will be allowed at this seminar. This seminar is hosted by Silver City Flying Club. Register today, seating limited.

**Directions:** The Firehouse is located just off Rt. 372 / Main St. See Maplink at [faasafety.gov](http://faasafety.gov)

## A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
