

FAASTeam, EA-63 FSDO presents:

So Now I Own This Aircraft, What Can I Do To Maintain It? How Do I Find a Good AMT?

Each aircraft owner or operator has the primary responsibility for maintaining that aircraft in a safe and airworthy condition. At this FAASTeam Seminar, you will learn what you can do to legally and safely to preform preventative maintenance on your aircraft. Additionally, we will cover the topic of finding the right AMT for those other inspections and repairs that the aircraft needs. FPM Jim Adams and Airworthiness Inspector, Mark Hesselton will show you how to do this and remain in compliance with the regulations. Bring those hard questions, like can I really change that fuel line? Glider, helicopter or airplane owners or pilots, this seminar has something for you. Cookout starts at 6:00 PM. Click the link below and register TODAY.

Directions: I-90 to exit 3, turn left on to Rt. 10-202, proceed .8 miles and turn right on to Apermont Way, at the stop sign turn right. Aero Design is at the base of the ATC Tower.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
