

FAA Safety Team, EA-63 FSDO presents:

OFC Safety Day and FAASTeam Seminar, Can You Depend on On-Board Weather?

July 19. Spot Landing contest, 9:00-12:00. Ramp Side lunch at 12:00. Award Presentation at 1:00 followed by FAASTeam Seminar. Come and learn from a seasoned career professional corporate pilot. Ken MacDonald will explore the techniques of reading the weather either on board or during preflight. Watching the radar and the trends and determine which direction to fly and which to avoid. Learn how to read and fly safe in ugly weather situations. Prior to on-board weather a pilot would need to review weather trends and interpret what the trends were and determine in what direction weather is moving. Will you be in the way? What are your options? What do you do? Learn from someone who can provide invaluable insights and relate some of the techniques which can be used by VFR and IFR pilots alike. Staying out of IMC without an instrument rating is critical. This seminar applies to pilots of all experience levels Attend this exclusive seminar to learn how. Click the link below and register TODAY.

Directions: Take I-84 to Exit 16-A, turn left off ramp and drive 2 miles. Take the Airport Access Road and to Keystone Aviation. See attached PDF in this announcement and Map Link at faasafety.gov
