

Knocking the Rust Off, or How Not to Fall Out of The Sky

Been grounded all winter; buried in snow? In this seminar we will look at getting back into flying after a long cold winter. Using interactive multimedia we will analyze some flying scenarios that had a hazardous outcome for the pilot and passengers. We will look at what you could do differently to not fall into the same accident chain. Plan on bringing a note pad and pen to this seminar so you can spot some of the errors and situations in which pilots get themselves. Refreshments provided by Interstate Aviation. Presentation by: Rep. Jason Archer, Rep. Terry Keller and FPM Jim Adams. Don't miss this event. Click on the link below and register TODAY.

Directions: I-84, to CT-72 West, exit at CT-177, turn Rt on N. Washington ST. go 1/2 mile turn Rt. on to Johnson Ave.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
