

EAA 1310 Spring Fly In and Safety Seminar, Breakfast and Cookout

Been grounded all winter; buried in snow? In this seminar we will look at getting back into flying after a long cold winter. Using interactive multimedia we will analyze some flying scenarios that had a hazardous outcome for the pilot and passengers. We will look at what you could do differently to not fall into the same accident chain. Plan on bringing a note pad and pen to this seminar so you can spot some of the errors and situations in which pilots get into. BREAKFAST 09:00 to 10:00 and COOKOUT to follow the seminars! See details under additional Info. Click on the link below to register TODAY!

Directions: Skylark Airpark is located 1/2 mile south of the CT-RT 140 intersection. Event is held in the hangar.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
