

Preparing For The Unexpected:” Do The Right Thing”

All too often pilots will act impulsively when faced with an unexpected event, and sometimes their "startle response" will weld the final link in the chain leading to a fatal accident. During this presentation, Doug Stewart will present a variety of scenarios to help you prepare for the unexpected. He will discuss: how to counter the "startle response"; the proper thing to do if you have an inadvertent IMC encounter; how "threat and error management" can make you a safer pilot; the proper response to engine failures at any time from takeoff to landing; how to do the right thing when the unexpected happens to you. Lunch provided after the seminar. Click the link below and register TODAY.

Directions: Please see the map link for driving directions.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
