

Are You Losing Control--Surprise Surprise Surprise--Cookout at 6 PM

FAASTeam Rep. Kenneth MacDonald and FAASTeam Program Manager Jim Adams will present this eye opening safety seminar on preventing loss of aircraft control. We will review and discuss loss of control accidents and see how they could have been prevented. Every year countless aircraft depart from controlled flight, unfortunately many pilots do not regain control prior to impacting the ground, resulting in serious injuries or death. This is an interactive seminar, so bring your questions. This seminar hosted by Fitchburg Area Pilots Association, Cookout starting a 6:00 PM, prior to the start of the seminar. Don't miss this event. Click on the link below and register TODAY.

Directions: Take the first right after entering the airport, then follow the road through the gate to the end.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
