The 3 Ps to Avoid Pilot Error

Personality, Proficiency, Preparedness

Who is at fault in the case of pilot error? Of course, it is the pilot. In this seminar we will see how a pilot's personality affects the outcome of the flight. We will also discuss what it means to be proficient going beyond the required three take-offs and landings per ninety days. The seminar will end with a discussion of preparedness and what can be done to make sure you don't miss anything.

Nina Anderson will be leading this seminar and solicit some participation from the attendees.
