

FAA Safety Team, EA-63 FSDO presents:

Lets Not Meet By Accident

FAA Safety Team (FAASTeam)

Representative and retired FAA Runway Safety Analysis Pilot, Kenneth MacDonald and FAA Safety Team Program Manager, Jim Adams will present this eye opening safety seminar on preventing runway incursions and excursions.

The world's most deadly aircraft accident happened on the ground. How did this happen?

How can it be prevented? What did we learn from this accident and others like it? We will discuss runway safety concerns at Non-Tower airports as well. This is an interactive seminar, so bring your questions. This seminar hosted by Worcester Area Pilots Association and the Worcester Regional Airport. Light refreshments provided by W.A.P.A.

Directions: See MapLink at faasafety.gov. Free auto parking is on the lower level, just take a ticket. Aircraft parking is at Rectrix Aerodrome.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
