

Effectively Using ADS-B Additional Seats Added

Additional Seats Added for this FAASTeam Seminar !

This presentation will cover the basics of the ADS-B system and how weather and traffic are presented on the Garmin 430W. The presentation will also show some of the differences between FIS-B and XM weather data, concluding with a few examples of how to utilize the resources in real-world scenarios. Please bring your questions to this exciting presentation. Refreshments provided by Reliant Air Services, Inc.

Directions: Wibiling Rd. is just off Rt. 7, across from Sports Authority. See map link.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
