

## EAA 1310 FAAST Team Fly By Night Seminar

Flying after dark in light aircraft comes with real trade-offs. Smooth air, better performance, and stunning views are great—but they're offset by trickier landings, invisible terrain, and limited emergency options. This event covers the key to staying safe after sundown.

Along the way, we cover:

- Requirements for pilots and aircraft
- Unique flight planning considerations
- Why all nights are not created equal
- Things that can take you by surprise

**Directions:** Come to the EAA 1310 hangar for the training session!

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
