

FAA Safety Team and the Bradley FSDO presents:

Hartford IMC Club Monthly Meeting at KMMK

You are invited to the beginning of the summer season meeting of the IMC Club, Hartford Chapter. IFR skills are critical this time of year. At this meeting a new instrument flying scenario will be presented and discussed. Through its nationwide chapters, the IMC Club, in association with the EAA, provides organized "hangar flying". Our training is focused on building proficiency in instrument flying with the philosophy that safety and proficiency are developed through education and experience. Our monthly meetings use real world scenarios to engage members and allow them to share and build on their own experience. You do not have to be an instrument rated pilot to attend. Following the presentation, we will conclude with the question, "What would you do?". Refreshments will be served. Click the link below and register today!

Directions: Take Main St. CT-70 or Hanover St. to Evansville Ave. The meeting is held in the yellow airport terminal building.
If flying in, look for the yellow FBO airport terminal building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
