

FAASTeam presents:

# **ForeFlight! Tips And Tricks To Get The Most From Your iPad!**

Our special guest speaker is Dave Strassburg! You do not want to miss this...Dave has a way of teaching in a fun way, that is interactive and you will walk away knowing something new.

Dave is currently one of the most active flight instructors in our district. He flies a Cessna 310 across the country for business and when he is not working his "day job" you will find him instructing at Northampton Airport in tail-wheel aircraft, gliders, and the Red Bird Advanced Training Device.

Dave recently renewed his Flight Instructor Certificate based solely on his WINGS Activity and became a Gold Seal Flight Instructor at the same time based on his successful student pass rate. He is a Lead FAASTeam Rep and a Designated Wings Pro for the Bradley FSDO. Dave recently attended a training event for ForeFlight, and he is very excited to share all of the valuable insights he has learned with our local flying community.

There is a lot more to ForeFlight than most pilots realize! The odds are that you will learn a lot of new stuff when it comes to operating ForeFlight! This seminar will be interactive! Bring your iPad or iPhone with ForeFlight with you!

Dave is going to demonstrate for us in live time, resources that ForeFlight can bring to our

## Event Details

**Tue, Jun 25, 2019 - 18:30 EDT**

**Worcester Regional Airport**

375 Airport Drive

Worcester, MA 01602

flying. We will learn handy tips and tricks...from flight planning at home and filing a flight plan, to using our iPad in the cockpit.

Dave will also demonstrate for us the new technology that connects ForeFlight with Northampton Airport's Redbird Advanced Aviation Training Device for folks that are interested in this powerful training tool.
