

FAASTeam presents:

Skylark VMC Club Monthly Meeting - K7B6

The Skylark EAA Chapter 1310 VMC CLUB "hangar flying" meeting represents a scenario based discussion led by CFII Gil Midford. Following the presentation we will conclude with the question, "What would you do?" Through such discussions you can build proficiency in flying and improve your Aeronautical Decision Making (ADM) and Threat and Error Management (TEM) to become a better pilot. Our monthly meetings use real world scenarios to engage our pilots and allow them to share their own experiences. Please bring suggestions for next meetings topics!

Directions: We will have a remote meeting you can enjoy from your home. Our topic will be CROSS WIND LANDINGS.

Please register today by clicking this link!
