

FAASTeam presents:

Skylark VMC Club Monthly Meeting - K7B6

The Skylark EAA Chapter 1310 VMC CLUB "hangar flying" meeting represents a scenario based discussion led by CFII Gil Midford. Following the presentation we will conclude with the question, "What would you do?" Through such discussions you can build proficiency in flying and improve your Aeronautical Decision Making (ADM) and Threat and Error Management (TEM) - and get a better pilot through education and experience. Our monthly meetings use real world scenarios to engage our pilots and allow them to share their own experience. Refreshments will be served. Click the link below and register TODAY! Please bring suggestions for next meetings topics.

Directions: We will have our meeting in the lower pilot lounge at Skylark Airport.
