

## The Preflight Mindset

This FAA Safety Seminar explores the critical role of preflight inspection and preparation in accident prevention and safe flight operations. Participants will learn how effective preflight practices go beyond the standard walk-around by incorporating risk management, aeronautical decision-making, human factors awareness, and professional inspection techniques.

Through real-world scenarios and practical examples, this seminar will discuss common preflight oversights, complacency traps, maintenance discrepancies, fuel contamination, checklist discipline, and strategies for identifying potential hazards before takeoff. Designed for student pilots, certificated pilots, and flight instructors alike, this seminar emphasizes building a proactive safety mindset and establishing professional habits that enhance operational safety and decision-making.

### Event Details

**Wed, May 20, 2026 at 18:00 EST**

**Avia Flight Academy**

325 main st

Stratford, CT

**Contact: Amro Aly**

**(719) 963-6213**
