

Please join us for an evening with FAASafety Team Representative,
Michael Lessard, and your BGR Air Traffic Controllers

"Flying in and around the BGR Class C Airspace"

Do you fly in the area surrounding Bangor International Airport? This seminar will focus on the airspace in a 50 mile circle of KBGR. Bet you'll be amazed at what you will learn about your local flying area, its services and excellent opportunities.

The discussion will address many interesting facts about the surrounding airports, special use airspace, the Class C area, communications, procedures and much more. A.J. and Melissa will be there from the tower to talk about the many ways that you can utilize these important resources, and why you should fly in to visit KBGR sometime soon!

Come in and bring your questions for your Air Traffic Controllers!

As always, pre-registration on SPANS is appreciated!

This event will be co-sponsored by the Portland ME FSDO, North Atlantic Aviation LLC, and the University Flying Club. There will be lots of great homemade refreshments, door prizes and socializing! So come out and be part of this fun and interesting evening!

Wednesday, 7 Oct, 7:00 PM at the Donald P. Corbett Building →
Room 107 → University of Maine → Orono
