

Defensive Airport Navigation

The single largest loss of life in an aviation accident occurred during a runway incursion. Not surprisingly, runway safety continues to be at the top of the FAA's agenda. Runway incursions continue to occur at an alarming rate! Don't miss this critical briefing on runway incursion prevention and runway safety. Our speaker is Harry West, the FAA Runway Safety Program Manager for the New England Region. Learn how to avoid becoming the next statistic!

Directions: See "Additional Seminar Information" for directions.

A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
