

# Don't Deviate!

Pilot airspace deviations continue to be a problem. In an era of Temporary Flight Restrictions (TFRs) and Special Flight Rules Areas (SFRAs) and Military Operations Areas (MOAs), can you afford to be deficient in your knowledge of airspace? FAA Safety Team Representative and Flight Instructor Byron Danforth will refresh your airspace skills to ensure you know the requirements and stay safe and legal in the National Airspace System. Don't miss it!

**Directions:** I-95 to Augusta. Take Exit 109 and proceed westbound on Rte 202. Follow Rte 202 west to Rt 133 to East Livermore. Look for signs for airport.

## A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
