

FAASTeam & Portland FSDO presents:

On the Path to Safety

Did you know that inadvertent stalls and spins continue to claim the lives of pilots and their passengers across the country? Many occur during the takeoff and landing phase of flight but many also occur when the pilot is distracted by one or more other tasks, such as locating a checklist or attempting a restart after an engine failure; flying a traffic pattern on a windy day; reading a chart or making fuel and/or distance calculations; or attempting to retrieve items from the floor, back seat, or glove compartment. Attend this informative safety seminar and get "On the Path to Safety". Featured speakers John Gary and Sue Tholen (2008 and 2009 Flight Instructors of the Year) will provide you with a review of aerodynamic principles regarding stalls and spins; training that could save your life! Don't miss this critical safety briefing from these two outstanding professionals.

Directions: Event Hangar @ Southern Maine Aviation, same building as Cockpit Cafe.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
