

Know Before You Go!

Every pilot wants to avoid "The Dreaded Silence"... the lack of sound produced by an aircraft engine when it fails in flight! But, is there anything that a pilot can do to reduce the likelihood of such a condition? The answer is absolutely YES! Attend this informative briefing and familiarize yourself with the steps you can take to avoid engine failure in your ultralight, light sport, or amateur-built aircraft. Earn WINGS Credit for attending! Click on the link below and reserve your seat TODAY!

Directions: I-95 to Route 33 West. At 2nd traffic light take a left onto Old Post Road. Go two miles to #682 Old Post Road (on right).

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
