

Are You Distracted?

Being distracted in the cockpit can, at the least, lead to a pilot deviation, a letter from your 'Friendly' Aviation Administration, and a lot of inconvenience and embarrassment. It can also be expensive, resulting in a gear up landing or damaged aircraft. At the worst, distraction can result in an accident. Learn how to recognize situations ripe for distraction, and how to prevent them from affecting your flying. Attend this exclusive event. Click the link below and register TODAY.

Directions: Click the map link and see "Additional Information" section below for a link to the driving directions.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
