

Survival

Most aircraft accidents are survivable. Whether a pilot remains alive to be rescued or not is often a matter of being prepared for the post-accident survival situation. This seminar will focus on how to prepare and use a personal survival kit. We will concentrate on land survival in summer and winter conditions. Join us for this exclusive event. Click on the link below and register TODAY.

Directions: I-89 to Exit 14E (Rd). Follow Williston Rd eastbound. Go approx 2.5 miles. Turn left on Valley Road after passing the boat dealership on the right. Follow the signs to Vermont Flight Academy.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
