

## Rusty Pilots Program

This program is designed to help pilots who have been away from flying for some time and would like to get back in the left seat. The seminar will cover topics such as airspace, medical issues, regulations, and general safety -- topics you must know to operate safely and legally in the National Airspace System.

**Directions:** From the intersection of I-89 and NH Route 12A, proceed south on Route 12A for about 0.2 mile to the traffic light. Turn left (east) onto Airport Road and proceed up the hill to the Control Tower and Granite Air Center.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
