

2015 New England Seaplane Safety Expo

In this year's FAA Safety Seminar we will explain the importance of proper techniques during various phases of seaplane operations. We will review turning, docking, ramping, and sailing during strong wind conditions. We will discuss the importance of proper pitch attitude during the takeoff phase. In continuing our education on emergencies, we will discuss different types of shoulder harnesses and the use of lifejackets. To register for this event, click on the link below.

Directions: Rt 302 to Rt 114 (in Naples). Turn onto Rt 114 and proceed 2/10ths of a mile. Turn left onto Seaplane Cove Road and proceed to parking.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
