

FAASTeam, Portland FSDO presents:

# FAASTeam Flight Instructor Open Forum

At this open forum, we will discuss Transitioning from Steam to Glass & Glass to Steam Gauges. The purpose of this Flight Instructor Open Forum is to stimulate discussion regarding ways to increase effectiveness of transition training from traditional "steam gauges" to glass panel displays. More than ever before, the aircraft in which we train the pilots of tomorrow, are upgraded with new equipment. What are the best practices for teaching this transition? Don't miss this opportunity to discuss the methods, techniques, and challenges involved in guiding a pilot through a transition. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Click the link below and register TODAY.

**Directions:** Take I-95 to Exit 19. Go north on Route 109 for 7.5 miles. Southern Maine Aviation will be on your left behind the Lucas Country Store (1.5 miles from intersection of route 4 and 109).

#### **A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
