

Maintenance for Pilots

This is a 12-week course, which will provide students with the opportunity to experience hands-on training relating to preventive maintenance procedures as allowed by F.A.R. Part 43 Apdx A. It is only open to students already enrolled in the course. Dec 17 is the final class date. Please contact Moses Daly for info on the next course offering.

Directions: Take I-89 to Exit 14E (Williston Rd). Follow Williston Rd eastbound. Go approximately 2.5 miles. Take a left on Valley Road after passing boat dealership on right. Follow signs to Burlington Technical Center.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
