

## How the Grinch Stole Winter Flying

Does the thought of winter flying put a knot in your stomach? It's just like summer flying except with snow, ice, freezing precipitation, contaminated slippery runways, obscured airport signage and markings, short days, cold engines and airframes, fewer emergency landing spots, cold weather survival considerations, snow plows on runways, etc. No wonder you're wary. Yet winter flying can be safe and fun. We will discuss the steps that every pilot should take to enjoy flying during the crisp, clear days of winter. Flight instructors are encouraged to attend with their students

**Directions:** I-89 to Exit 14E (Williston Rd). Take Williston Rd to Airport Dr. Follow to the airline terminal. Park in the parking garage. NOTE: Bring your parking ticket into the seminar so it can be stamped for free parking.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Wed, Jan 18, 2017 - 18:00 EST**

**Airport Terminal Building**

1200 Airport Drive

2nd Floor, South End

South Burlington, VT 05403
