

FAA Team, Flt Stnds, Reg Admin Office, ATO, Arpts, Rnwy Safety presents:

NEASE - Some Accidents Happen But Most Are Caused

The NTSB publishes a 'Top 10' list of changes needed to improve safety. However, information mined from Avemco Insurance Company's claim files reveals there are many things that can ruin your day of flying that don't get the attention of the NTSB. In addition to tips to help avoid an accident, we will discuss traits in pilots that have had accidents vs. those that have not. Mike Adams is Vice President of Underwriting at Avemco Insurance Company and an instrument rated pilot. He has 30 years of combined experience with general aviation and the aviation insurance industry. Mike learned to fly in Hillsboro, Oregon. In 1984 he joined the local office of National Insurance Underwriters as an underwriting and sales agent, which eventually led him to join Avemco. While Mike's job is to decide what Avemco will insure, his goal is to help customers understand why these decisions are designed to help keep them safe. "I want customers to understand that buying their aircraft is a transaction, but buying their aircraft insurance is a partnership. And, when they partner with Avemco, we're in this together to make sure they're protected if something bad should ever happen."

Class Times: 1230-1320 (Note: This class is also being held from 1030-1120. Please register

Event Details

Sat, Mar 25, 2017 - 12:30 EDT
North Shore Community College

1 Ferncroft Road
Danvers, MA 01923

Contact: Karen Goff
(781) 238-7123
karen.l.goff@faa.gov
