

FAASTeam, Flt Stnds, Reg Admin Office, ATO, Arpts, Rnwy Safety presents:

NEASE - The Risk-Based Flight Review

This class is an opportunity for CFIs and pilots to come together and discuss the Flight Review. As a CFI, you are well aware that the flight review is the only time many pilots get an opportunity to have their flying evaluated. So how do you structure the Review to take into consideration the areas of greatest risk to that pilot? What type scenarios do you use to make it realistic? The Flight Review is also an opportunity for a pilot to play an important and interactive role in his/her own evolution as an airman. How do you, the pilot, go about doing that? Our, speaker, Doug Stewart, is the 2004 National CFI of the Year, a Master CFI, a Designated Pilot Examiner, and a FAA Safety Team Representative.
Class Time: 1330-1520

Directions: From the South
Route 1 North to Danvers or Route 95 North to Danvers, Exit 50. From either route follow signs for NSCC onto Route 1 South. Take right onto Ferncroft Road. NSCC Campus first left.
From the North
Route 95 south to Danvers, Exit 50, Route 1 south. Right onto Ferncroft Road. NSCC campus first left.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
