

## Seaplane Safety and Aquatic Species Training

Designated Pilot Examiner and FAA Safety Team Representative Doug Smith will take us through the steps to be a safe seaplane pilot. He will cover preflight, docking, takeoff and landing, rough and glassy water operations, and emergencies. There will also be a discussion and training for dealing with aquatic species that may adhere to seaplane floats.

**Directions:** Take Williston Rd to Valley Road. Go to the end of the road and bear left. Vermont Flight Academy is located in the yellow building at the end.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
