Select #: EA6577809

Lead Representative RICHARD EARL FERNO

I'm sure you have many questions about your electronic flight bag.

Our speaker, Trever Lilya, is an instrument rated pilot a B.S. in Aviation Administration. He is currently working on a M.S. in Aeronautics from Embry-Riddle Aeronautical University. Trever has extensive knowledge of ForeFlight software. He will take us through an introduction to ForeFlight Mobile, including advanced features that professional pilots use every day. He will walk us through filing a flight plan in ForeFlight using the ICAO flight plan form. Additionally, the ADS-B ground network is a part of the FAA's transformation of the National Airspace System. Trever will review how ForeFlight can utilize this system to greatly enhance pilot safety.

Directions: I-89 to Exit 14E (Williston Rd). Follow Williston Rd eastbound. Go approx 2.5 miles. Take left on Valley Road after passing boat dealership on right. Follow signs to Vermont Flight Academy.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
