

New England Weather!

Mr. Chris Kimball from the NOAA's National Weather Service office in Gray, Maine, will be at Southern Maine Aviation to showcase a presentation on common weather patterns, trends, and unique phenomena that are native to New England seasons. This presentation should be a great introduction or review for both new and seasoned pilots!

Directions: The seminar will be held in the show hanger of Southern Maine Aviation, which is in the main terminal building at Sanford Seacoast Regional Airport. Take I-95 to Exit 19. Go north on Route 109 for 7.5 miles. Southern Maine Aviation will be on your left behind the Lucas Country Store (1.5 miles from intersection of route 4 and 109).

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
