

Are You Intimidated by ATC

Do you avoid towered airports, flight following, and other ATC services? Does the thought of talking to ATC cause the hair to raise on the back of your neck? Our speaker, Dick Ferno, is a FAASTeam Representative, a flight instructor, and a retired air traffic controller. He will explain ATC procedures and give you tips for communicating with controllers. Come learn from a pro how working with ATC can make your life, as a pilot, easier and safer.

Directions: From I-91, take Exit 7 West onto Route 10, Go about 7 miles to Route 106N (Woodstock). Go a half-mile on Rte 106 and turn right at the Hartness Airport sign. Proceed to four corners (1/4 mile) and make a right turn into the parking lot. The terminal building is on the left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
