

Come join us for an evening with FAASTeam Lead Rep, Michael Lessard.

Bringing local pilots and online pilots into the classroom as we present live from the WINGsReality EDU campus in Orono Maine.

Airspace Made Easy!

Many pilots find airspace to be somewhat complicated. Some tend to stay in their comfort zones, and don't often venture off to new and fun places. Others might avoid flying into towered airports, or into busy terminal areas. Beyond private pilot ground school or reading the regs, there are not a lot of good opportunities to really brush up on airspace knowledge. In this webinar we will explore the two important topics in airspace. Airspace boundaries and airspace rules. Truth is, it's really not complicated at all. With a few quick tricks, anyone can master airspace and feel confident to fly anywhere.

As usual, lots of great homemade goodies, door prizes and socializing! So come out and be part of this fun and interesting evening. Free to attend on campus (limited seating). A charge of \$6.95 is required to attend online.

Tuesday, 27 Mar, 7:00 – 9:00 PM Eastern Time
Attend on campus at 20 Godfrey Drive, Orono ME or online at
