

## You Are Only Human

It has been said that human factors play a role in all aircraft accidents. We will discuss the role that psychological and physiological factors and ergonomic designs play in the role of general aviation and air carrier accidents. We will analyze the “Dirty Dozen” human factors that are most commonly found in the aftermath of accidents. Join us and learn how to recognize and effectively deal with these factors in your flying.

**Directions:** I-95 to Exit 46 (Portland Jetport). Follow signs for Airport. Conference room is on second floor in Airline Terminal.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
