

First Responder Training - Hazards at Aircraft Accident Sites

Aircraft structures, plus mechanical, electrical, and fuel systems, as well as installed equipment such as ballistic parachutes, oxygen systems, and airbags present hazards unique at light aircraft accident sites. This seminar is intended to raise awareness of these potential hazards.

Directions: Please register for First Responder Training - Hazards at Aircraft Accident Sites on May 27, 2020 1:00 PM EDT at:
<https://attendee.gotowebinar.com/register/7360230199221224461>

After registering, you will receive a confirmation email containing information about joining the webinar.
