

Manchester-Boston Regional Airport General Aviation Runway Safety Forum

Runway safety remains one of the FAA's highest priorities, and we are eager to discuss this critical topic with the General Aviation community. Join us for an engaging forum featuring guest speakers from MHT Airport Operations and MHT Air Traffic Control Tower. They will provide insights into industry best practices and resources available to GA pilots.

Please feel free to share this invitation within your communities. We hope to see significant participation from the General Aviation sector at this important event.

(Attendees may have their parking garage costs validated by attending the Safety Forum)

If you have any questions, please do not hesitate to reach out.

Thank you, and we look forward to your participation!

Event Details

Wed, Apr 8, 2026 at 17:00 EDT

**Manchester-Boston Regional
Airport**

1 Airport Road

Manchester, NH

Contact: John Bell
