

Flying Floats to Bush Wheels

Incidents on water and in the backcountry.

Learn directly from fellow Maine pilots as they share what happened during their incidents and accidents—what led up to them, how they handled the aftermath, and how they confidently returned to the cockpit. Their stories offer powerful lessons you can apply throughout your flying career.

Join us for the 25th Annual Seaplane Safety Seminar as we dive into accident avoidance, risk factors, and the real-world scenarios that every pilot can learn from.

Registration begins at 9:00 am with coffee and refreshments. The seminar will run from 9:30 to 12:30 with a luncheon to follow. This seminar qualifies for a Knowledge Credit through the FAA Wings program.

From Maine Turnpike. East on Somerset Ave, south on Main St (Rt 100), southwest on Peltoma Ave, and then turn right onto Harrison St.
