

THREE ZERO NINER

Meets every 3rd Monday in Charlotte, NC

Charlotte EAA Chapter 309

APRIL DINNER PROGRAM

Monday April 19th Program at 7:00P

SPEAKERS: Our Speakers for the April Dinner Meeting are Eddie Shields and Ralph Carr, FAA Inspectors in Charlotte. They will present the FAAST Team Program on Light Plane Maintenance. They will also have a question and answer session on certification of aircraft which they say is always an interesting topic and may take awhile due to all the different questions that usually arise.

Eddie told us: *I have done this before during my tenureship as the designee for Chapter 309 in 1976 when it was first started. That was long before I was in the FAA! Earl Edwards, Beshan Neshat, Steve Morgan, and others were the charter members back then. We held the meetings at the Thurston Aviation hanger where I worked. I think it is now Wilson Air. Ralph and myself are both A&P's and worked in the industry before coming to the dark side. I also was a DAR in which I certificated numerous experimentals and was a DME. (designated mechanic examiner) I am still active with aircraft at my home in York, SC. I am flying my Swift which I won the best Super Swift award, the best polished Swift and ladies choice in last years annual Swift national flyin. I am presently rebuilding a J-3 Cub and my wife is rebuilding her 1976 Cessna 172. (she also is an A&P mechanic and IA) If you have any other ideas you would like for us to cover, we would be happy to accommodate you."*

The Dinner Meeting will be held at the **Captain's Galley**

11032 E Independence Blvd., Matthews, NC 28105
