

# Caring for Experimental Amateur-Built and Light Sport Aircraft

The amateur aircraft building community and Light Sport Aircraft (LSA) segments are foundational to general aviation in the US. However, recent trends in experimental airplane and LSA accidents have suggested a need for an increased effort to ensure that pilots of these aircraft are prepared for the challenges associated with the maintenance and repair of these aircraft.

At this informative briefing you'll learn how to properly maintain your experimental / LSA aircraft and engine. Click on the link below and register TODAY!

**Directions:** EAA Chapter 731 monthly meeting area in the terminal building.

## A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

## Event Details

**Tue, Sep 17, 2013 - 7:00 pm**

**Hickory Regional Airport**

3101 9th Ave. NW

Terminal Meeting Room

Hickory, NC 28601

Contact: **Bradley Bormuth**
