

The FAA Safety Team presents:

VFR Chart Challenge

Sectional Aeronautical Charts are the primary navigational reference medium used by the VFR pilot community. Understanding aviation charts is fundamental to navigation. Some pilots never really master the basics and many others lose their chart knowledge as time goes by. Are you an expert on Sectional Charts? Attend this informative briefing presented by featured speaker Cindy Carter, take the test and find out how much you really know! This is a fun and entertaining way to refresh your knowledge. Click on the link below and register TODAY!

Directions: From I-26 take the Asheville Airport exit, turn South, take the first entrance into the airport at the green "Learn to Fly Here" sign. Proceed to the yield sign, the Lacy Griffin building is straight ahead. Additional parking in the gravel lot to the left of the yield sign.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
