

## Stabilized Approach to Landing

At this event you will learn about the Stabilized Approach concept and the importance of a stabilized approach for a safe landing. We will discuss how to maintain a stabilized approach and know when to go-around. Please join us at this exclusive seminar. Click on the link below and register TODAY.

**Directions:** Take the General Aviation entrance to the Asheville airport. The Lacy Griffin building is first building the right past the 4-way stop.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
