

FAASTeam presents:

Virtual National Aviation Safety Stand Down

A safety stand down is an event at which pilots gather to learn new information, refresh already learned information, and to engage in discussion with safety experts and fellow pilots. This live webinar format event is presented by the Advocates for Aviation Safety Foundation, Inc. and features three main live presentations from experts in their fields. A live discussion will take place following each presentation. Attendance at this event, either at one of this hosted event or online through your own device, will earn all three FAA Wings knowledge credits at the basic level. If you're unable to travel to the Asheville Airport, you can still participate in this event on your home computer by registering at https://advocates4safety.org/vsd/vsd_registration.html.

If you're joining us at the Asheville Airport, you can register through www.faasafety.gov in response to this notice.

Directions: WNC Aviation located at the Asheville Regional Airport in the Lacy Griffin Aviation Center. From Airport Road, turn onto Aviation Way (across from Asheville BMW). Before the first stop sign, turn left and park in the gravel lot. By air, ask ground control for progressive taxi instructions to WNC Aviation on the "middle ramp."
