

Charlotte FSDO-68 presents:

Free Pancake Fly-in and FAA Safety Event

Fly or drive in for a tasty, free, all-you-can-eat breakfast including pancakes, sausage, orange juice and coffee. Then enjoy the presentation by the Charlotte FSDO FAASafety Team Program Manager, Eddie Shields, on "Preventive Maintenance". Learn Preventive Maintenance that you can accomplish on your aircraft and how to properly and legally sign off that work. We will include a special emphasis on Light Sport and Experimental/Amateur-Built aircraft. Plan to discuss maintenance you can accomplish on your Certificated and Light Sport/Home-Built aircraft. Learn the truth about "Operating Limitations".

Bring a copy of your Experimental Home-Built Operating Limitations and we will openly discuss any issues you may have with your Operating Limitations. There will be an open discussion on all maintenance issues with Amateur-Built and certificated aircraft. To attend this event, click the link below and register TODAY.
