

Charlotte FSDO FAASTeam presents:

FAASTeam Flight Instructor Open Forum

At this open forum, we will discuss Transitioning from Steam to Glass & Glass to Steam Gauges. The purpose of this Flight Instructor Open Forum is to stimulate discussion regarding ways to increase effectiveness of transition training from traditional "steam gauges" to glass panel displays. More than ever before, the aircraft in which we train the pilots of tomorrow, are upgraded with new equipment. What are the best practices for teaching this transition? Don't miss this opportunity to discuss the methods, techniques, and challenges involved in guiding a pilot through a transition. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Click the link below and register TODAY.

Directions: Excess auto parking is available diagonally across the intersection from the Lacy Griffin Building. If flying in park in between the corporate hangers at taxiways Hotel and Kilo, and call 828-687-7540 for gate access to WNC Aviation, Lacy Griffin building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
