December 18, 2015

Dear Inspection Authorization Holder:

You are invited to attend the 2016 IA Training Seminar sponsored together by the Charlotte Flight Standards District Office and the Charlotte FAASTeam. These training programs are generously hosted by the Gaston Community College in Belmont, NC and various sponsors.

Individual Training Certificates will be issued at the end of the seminar. Please retain your completed training certificate for your records and submit with your 2017 IA renewal package. You may attend one of the IA refresher trainings or complete any FAA-accepted course online. FAAsafety.gov provides accepted courses that are online training and are accepted for renewal requirements.

On-line announcements and reservations will open on February 05, 2016. To pre-register for available seating, please visit www.faasafety.gov and follow the links under the SPANS / Events and Seminar section.

Eight hours of training credit will be given at each of the refresher meetings and applicable towards the 2017 IA renewal process. Directions to each of the facilities will be available on: www.faasafety.gov. Seating is limited, so please register early.

Keep in mind attendance "alone" may not satisfy all of the requirements for the IA renewals. The IA renewal applicant must continue to meet the requirements as stated in FAR 65.91 and 65.93 for each IA period. We would like to remind you that your current IA privileges will expire at the next renewal date on March 31, 2017.

We look forward to seeing you at the March IA Refresher Training. Please contact this office at 704-319-7020 or 704-319-7057 should you need additional assistance or for an inclement weather update on the event.

Edwin Shields
FAASteam Program Manager EA-68
