

Charlotte FSDO FAASTeam presents:

FAASTeam Flight Instructor Open Forum

At this CFI Open Forum, we will discuss Teaching with Tablet Technology. The purpose of this Flight Instructor Open Forum is to stimulate discussion regarding EFB (Electronic Flight Bag), which is any electronic tablet, phone or other capable of providing current aeronautical charts, moving maps, flight planning, weather or traffic displays. Do not miss this opportunity to discuss the best practices in teaching with reference to tablet computer hardware and software, including the methods, techniques, and challenges involved with using tablet technology on the flight deck. In addition, we will review new procedural requirements for the issuance of a Student Pilot Certificate. Flight Instructors, Ground instructors, Designated Pilot Examiners, and instructors in training are welcome and encouraged to attend. Register TODAY through faasafety.gov or check the procedure below for remote access.

Directions: Aircraft and auto parking at Main Terminal Building. For aircraft parking, please park close to building beyond the self service fuel pump at terminal. Door to the meeting room and the restaurant will be open to the ramp.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
